ORDER OF PUBLICATION

State of Missouri, County of
Chariton, ss: In the Circuit
Court in vacation, April 6,
1914.

Charles C. Hon, Plaintiff

vs.

The unknown consorts, heirs,
devisees, donees, alienees and
grantees of William H. Pat-
terson deceased; and John H.
Phelps, deceased; the unknown
consort, heirs, devisees,
donees, alienees and grantees
of Charles S. W. White, de-
ceased; the unknown
consort, heirs, devisees, donees,
alienees, grantees and as-
signees of Cornelius O'Conner,
deceased; The County of
Chariton of the State of Mis-
souri; John Ferguson, Ollie
Ferguson, and David J.
Hutchinson, Defendants.

It appearing to the Clerk of
the Circuit Court in vacation
from the duly verified petition
filed herein that William H.
Patterson and John H. Phelps
appear to have acquired an in-
terest in the real estate herein-
after described as grantee in a
deed of trust from Adamantine
Johnson, dated November 23,
1869, and recorded in Book 3 at
Page 186 in the Recorder's office
of Chariton County, Missouri;
that Charles S. W. White ap-
pears to have acquired an in-
terest in the said real estate
under deed from William McCol-
um and wife, dated January 25,
1848, and recorded in Book "K"
at Page 316 in said recorder's of-
fice; that Cornelius O'Conner ap-
pears to have acquired an in-
terest in said real estate under
deed of trust from William J.
Russell and wife, dated May 7,
1891, and recorded in Book 6 at
Page 134 in said recorder's office;
and that said parties and their
consorts are all long since de-
ceased and no conveyance from
them or their heirs can be found
and that plaintiff verily believes
that there are persons interested
in the subject matter of the
petition and in said real estate
whose names are unknown to
plaintiff and cannot be inserted
in the petition for that reason
and that said persons are the
heirs, devisees, donees, alienees,
and immediate, mesne or remote,
voluntary or involuntary grantees
and assignees of said deceased
parties and their interest in said
real estate, so far as plaintiff
has knowledge, are such as they
derive or claim to derive as the
heirs, devisees, donees, alienees
and immediate, mesne or remote,
voluntary or involuntary grantees

or assignees of said deceased
parties and said unknown per-
sons are made defendants here-
in; and that defendant, David J.
Hutchinson, is a non-resident of
the state of Missouri and the
ordinary process of law cannot
be served upon him in this state.

It is therefore ordered by
the clerk of said court in vacation
that said unknown and non-
resident defendants be notified
that a civil action has been com-
menced against them, the object
and general nature of which is
to try, ascertain and determine
and to adjudge, settle, define
and quiet the respective titles
and interests of plaintiff and de-
fendants in and to the east half
of the southwest quarter of the
northwest quarter of the south-
west quarter and the southeast
quarter of the northwest quarter
of section four (4), township
fifty-four (54), and range seven-
teen (17); also the east half of
the southeast quarter of section
thirty-two (32), township fifty-
five (55) and range seventeen
(17), and also the north half of
the southwest quarter and the
southeast quarter of the north-
west quarter and the northeast
quarter of the southeast quarter
and the south half of the south-
east quarter of section thirty-
three (33), township fifty-five
(55) and range seventeen (17),
all in Chariton County, Missouri,
and containing four hundred and
eighty (480) acres more or less.

And unless they appear at the
next term of this court to be
begun and held in the city of
Keytesville on the third Monday
in May, 1914, and on the first
day thereof answer plaintiff's
petition the same shall be taken
against them as confessed.

It is further ordered that a
copy hereof be published accord-
ing to law in the Chariton
Courier, a weekly newspaper
printed and published in Chariton
County, Missouri, and designated
by plaintiff's attorney.

FIGHT FOR CONDEMNED

Sentenced to be Hanged April
27, 1914 New Trial
Sought

A Brooklyn, N. Y. millionaire
owns a pencil factory at Atlanta,
Ga. and until recently his nephew,
Leo Frank was the superinten-
dent. Among the hundreds of
girls employed in the factory was
Mary Phagan, a 14 year old
comely, hardworking Miss, who
was found dismembered and
sewed in a gunny sack in a
corner of the basement of the
factory April 27, 1913. The sack
was discovered some little time
afterwards and the hunt for the
murderer begun. This was one
of 15 murders of women in the
city of Atlanta and except in
this case, not a conviction.

Leo Frank, the superintendent,
a Jew, was suspected, from his
statements and was arrested—
discharged and rearrested, tried
and convicted. His case was
appealed and the Supreme Court
affirmed the finding of the lower
court and the prisoner was
sentenced to be hanged April 27,
1914.

Frank admitted that he was in
the office when the girl came
there about noon for some money
and to be reinstated in the posi-
tion she had lost. It appeared
that he was the last man who
saw the girl alive. Jim Conley, a
negro factory employee testified
that Frank had called him in
while the girl was in the office
and gave him orders to keep
watch outside the office. Present-
ly, Conley said he heard a muffled
scream and soon Frank came in
and said that the girl had re-
sisted him and he had hit her
too hard. Conley said Frank
sent him into the other room and
he saw the girl lying on the floor
dead. He was ordered by Frank
to remove the body and he got a
gunny sack and sewed the body
doubled up, in the sack and put
it on his shoulder to carry to the
elevator to take to the basement,
but the body was too heavy for
him to carry and Frank assisted
him and he took it to the base-
ment where it was found. Con-
ley said that Frank wrote some
notes which were found by the
body, and that he was paid \$200
by Frank for his help, but that
as he failed to get the body and
burn it in the factory furnace as
was agreed, Frank took the
money away from him.

There now appears to be senti-
ment in favor of Frank which is
operating to procure for him a
new trial and some of the big
papers and preachers of Atlanta
are interesting themselves,
claiming that the conviction
was a political frame up. The
city is badly divided and it is be-
lieved that in case a new trial
should be granted, Frank would
surely be mobbed, as at the time
of his trial, public sentiment was
such as to necessitate a company
of state guards in addition to all
the police force to be ready to
protect the prisoner should he
be declared not guilty or in the
event of a hung jury.

Many of the most dastardly
crimes are condoned by some af-
ter the conviction of the culprit,
and yet there is always an ele-
ment of uncertainty surrounding
the conviction of one on purely
circumstantial evidence which
appeals to people whose sympathy
may outweigh judgment or dif-
ference to public policy. There
are a number of fresh cases in
this country similar to Frank's
in which the judgments of juries
and courts have practically been
forced to be modified by public
sentiment as shown by activity
of women and the ministry in
behalf of the condemned,
whether properly or not, and it
remains to be seen what the out-
come of this case which at the
time was so conclusively certain
concerning the guilt of the ac-
cused.

IMPORTANT TO ALL WOMEN READERS OF THIS PAPER

Thousands upon thousands of
women have kidney or bladder
trouble and never suspect it.

Women's complaints often
prove to be nothing else but kid-
ney trouble, or the result of kid-
ney or bladder disease.

If the kidneys are not in a
healthy condition, they may
cause the other organs to be-
come diseased.

You may suffer a great deal
with pain in the back, bearing-
down feelings, headache and
loss of ambition.

Poor health makes you ner-
vous, irritable and may be de-
spondent. It makes any one so.

But hundreds of women claim
that Dr. Kilmer's Swamp-Root,
by restoring health to the kid-
ney's, proved to be just the
remedy needed to overcome such
conditions.

A good kidney medicine, pos-
sessing real healing and cura-
tive value, should be a blessing
to thousands of nervous, over-
worked women.

Many send for a sample bottle
to see what Swamp-Root, the
great Kidney, Liver and Bladder
Remedy will do for them. Every
reader of this paper who has not
already tried it, by enclosing ten
cents to Dr. Kilmer & Co., Bing-
hamton, N. Y., may receive
sample size bottle by Parcel
post. You can purchase the reg-
ular fifty-cent and one dollar size
bottles at all drug stores.

Seal Hunters Frozen

Off the coast of New Found-
land, 200 men from a sealing
ship were frozen to death. They
were on an ice floe which drifted
to sea and before rescuing ships
could find them they were all
dead. About 20 vessels were in
the sealing fleet.

WOMEN FROM 45 to 55 TESTIFY

To the Merit of Lydia E. Pink-
ham's Vegetable Com-
pound during Change
of Life.

Westbrook, Me. — "I was passing
through the Change of Life and had
pains in my back
and side and was so
weak I could hardly
do my housework.
I have taken Lydia
E. Pinkham's Vege-
table Compound and
it has done me a lot
of good. I will re-
commend your med-
icine to my friends
and give you permis-
sion to publish my
testimonial." — Mrs. LAWRENCE MAR-
TIN, 12 King St., Westbrook, Maine.

Manston, Wis. — "At the Change of
Life I suffered with pains in my back
and loins until I could not stand. I also
had night-sweats so that the sheets
would be wet. I tried other medicine
but got no relief. After taking one bot-
tle of Lydia E. Pinkham's Vegetable
Compound I began to improve and I
continued its use for six months. The
pains left me, the night-sweats and hot
flushes grew less, and in one year I was
a different woman. I know I have to
thank you for my continued good health
ever since." — Mrs. M. J. BROWNELL,
Manston, Wis.

The success of Lydia E. Pinkham's
Vegetable Compound, made from roots
and herbs, is unparalleled in such cases.

February Mortality

There were 3461 deaths in
Missouri during February, 1909
males, 1552 females and 3187
whites and 274 negroes. Pneu-
monia leads with 560.

There were some who thought
the wild ducks had gone. Mon-
day of this week White Lake
was reported inhabited by at
least a million ducks, mostly of
the mallard family.

THAT HIGH COST

A social worker speaking be-
fore the Hull House Woman's
Club in Chicago says that women
are more extravagant than men.
Their chief extravagances, says
the speaker are in dress,
amusements and funerals.
Students will witness to the
correctness of the speaker's first
two items, as exemplified in
even the smaller communities.
Luxurious desires in clothing and
the picture show evil seem to be
as much responsible for the high
cost of living as anything else.
In fact, living, though higher
than it formerly was, measured
by dollars and cents, is capable
of considerable lowering. The
only trouble is, as Abe Martin
says, there are too many thirty
cent people who look like a mil-
lion dollars.

HIS INCOME

Julius Rosenwald of Chicago
at the head of the Sears & Roeb-
uck firm, is the largest income
taxpayer in Chicago. His net in-
come for the year ending Dec.
31, 1913 was \$1,320,000.
This will be good news for the
gentleman's customers, friends
and supporters throughout the
county but they will be surprised
to learn that he can get such an
income off goods which his cus-
tomers have been thinking were
sold below the profit line.

Ice Cream Poor

The annual report of the Food
and Drug Commission of this
state has been made and publish-
ed. The commissioner asks
that several amendments be
made to the laws which will
give the state better service. In
prosecutions for violating the
food laws and in which the com-
missioner orders confiscation
the proceedings must be sup-
plemented by a regular trial in
justice court. This delays the
proceedings interminably at
times and the commissioner de-
sires that he be given power to
order confiscation when necessary
and to carry out the confiscatory
order without further proceed-
ings. He asks that in case of
eggs and other foods in cold
storage the date of the storage
be branded on the cases or re-
ceptacles so people will know
just how old their eggs, etc. are
when they get them. The
chemist's report shows that a
little over half of articles ana-
lyzed came up to the require-
ments of the pure food law.
There were 1006 analyses and of
these 458 did not meet the
standard of requirements, this
being a percentage of 45.33 be-
low the standard of pure food.
It was shown that some of the
milk analyzed went to as low as
1.20 per cent. of butter fat when
the requirement is 3.25 per cent.
The cream which was necessary
to show 18 per cent. of butter
fats did not go below 16 per
cent. in tested cases, this being
a pretty good showing. Ice
cream which was supposed to
show 14 per cent. of butter fat
in some cases went as low as 4
per cent. Only one of seven
samples of ice cream cones
passed inspection. Five samples
of eggs were examined and not
a single one passed inspection.
Of the ice cream submitted,
76.47 per cent. did not pass in-
spection.
